Preparing the Youth of Today for the Careers of the Future!

April 14- 15, 2010
8:00 am to 2:00 pm
Legacy Events Center - Farmington, Utah
anticipated attendance: 6,000

April 27- 28, 2010
8:00 am to 2:00 pm
Bridgerland Applied Technology College - Logan, Utah
anticipated attendance: 3,000

Preparing the youth of today for the careers of the future is what Utah Career Days is all about! Too many students leave high school without an idea of what kind jobs or careers that are available in today's workplace.

We need your help! Utah Career Days is an innovative workforce development tool designed to provide high school and junior high students with hands-on exposure to diverse and exciting careers and to provide a pipeline of professionals for tomorrow.

To make this event a meaningful experience for the students involvement is the key and we are writing to invite your business to become a sponsor and exhibitor at this event.

Through interactive exhibits students will discover the technical skills required to be successful and learn about internships, registered apprenticeships, career and training resources in:

- * Energy & Energy Efficiency
- * Automotive/Diesel
- * Construction
- * Aerospace
- * Engineering
- * Manufacturing
- * Green Jobs

Get Involved! Be a Sponsor! Be an Exhibitor!

Utah Career Days provides high school and junior high students with hands-on exposure to diverse and exciting careers and provides a pipeline of professionals for tomorrow. Through interactive exhibits students will discover the technical skills required to be suc-

cessful and learn about internships, registered apprenticeships, career and training resources in the industries of energy, automotive/diesel, construction, aerospace, engineering, manufacturing, and "green jobs." What a great opportunity to educate students, parents and teachers about today's

advancing industries and assist with dispelling old myths and stereotypes. Some 9,000 students are anticipated to attend. Utah Career Days is a public/private partnership of industry, education and state representatives. For more information contact Debby Nordfelt, dnordfelt@utah.gov, 801 526-9275.
